

## Smart streaming preamplifier

The DA-SA10R is a 19" networked streaming preamplifier that supports the most popular smart home systems, and will be integrated with more smart home brands in the future. The DA-SA10R can be used as internetradio tuner, media player, Spotify Connect device or Bluetooth receiver to integrate into your commercial audio systems.

DA-SA10R

### Features:

**Multiroom Audio System:** Mix and match any combination of MusicAll Streamers to create a custom multiroom system and play the same music throughout your home, send different sources to each room at the same time, or create your own custom-defined multiroom zones... All controlled via app or web interface.

**Brilliant Sound Streamed Directly From Your Favorite Providers:** Spotify, Amazon Music, Tidal, Qobuz, Deezer, Napster, TuneIn, Internet Radio, iHeart Radio, QQ Music, QQ FM. The DA-SA10 connects directly to your online streaming providers to play high quality audio, avoiding Bluetooth bottlenecks and compression.

**Stream Any Kind of Audio On One Device:** In addition to Direct Streaming from Online Streaming Services, Airplay, and Spotify Connect, there are multiple digital and analog input and output ports allowing you to connect most of the audio devices in your home.

Buttons for direct access to volume, source, play/pause, and 4 presets that can be radio stations or playlists for instance.

### Web & PC Control

Configure and/or control your devices via browser from any PC, tablet, or other device, no app required. Or stream music using any software that supports Airplay, Spotify Connect, UPNP or DLNA protocols, including iTunes, Spotify, Musicbee and more.

Remote, cabling and powersupply included.
